### Happiness.

To the convict it means getting out.

To the social climber it means getting in.

To the hypochondriac it means getting well.

To the ambitious man it means getting there.

To religious it means getting to heaven.

To the unhappily married it means getting loose.

To the young man in love it means getting "solid."

Happiness means different things to different people.

To the selfish man it means getting what he wants.

To the young woman in love it means getting kissed.

To the philanthropist it means getting other people what they want.

In any case you will notice that "happiness" and "getting" are pretty closely related.—Sunday Magazine of the Pittsburg Dispatch.

### Reflections of a Bachelor.

Proximity is nine points of the law of matrimony.

Anyhow, a woman can always vote to spend her husband's money.

When a man will write long letters to a woman they aren't married yet.

The best man in a race is the man who runs it for the pure fun of running.

A girl, a moon and a garden could take away a man's sense, even if he had any.

The way the average man wants to help others is trying to get them to help him.

One of the few things a boy learns thoroughly in college is for his father to keep on supporting him.

What a girl likes about a flirtation is it's so exciting thinking how exciting it would be if she meant it.

The good that a man does may live after him, but it has a hopeless fight for recognition while he is alive.

A man is called a philanthropist because of all the things he could do for his fellows and doesn't do them.

You can tell a man who brings up his children well by how much more they are like their mother than like him.

You could never convince a man the furnace wouldn't work better if his wife would admit he knew how to do it.

The first thing to do with a man just out of college is to try to get him to learn something now that he needs to.

The remarkable thing about a woman's faith is how it can be just as strong after the foundations have been knocked from under it.—New York Press.

## Sample Helps Frail Women

So many women are dragging out weary lives just because their digestive organs are weak. The result is poor circulation, nervousness and the verge of invalidism. It is often very unnecessary and the woman's own fault.

The first thing to do is to look to the welfare of your bowels. There the trouble usually lies. All physicians know that a large percentage of women are habitually constipated, and from this results indigestion, piles, weariness, etc., that women constantly complain of. But there is no use taking "female remedies" and things of that kind until you have started your bowels moving. You will find that when the bowels move regularly once or twice a day all your petty ills will disappear. Take a good, mild laxative tonic like Dr. Caldwell's Syrup Pepsin for awhile, and you will find yourself rapidly getting better and stronger, your bowels will regulate themselves and work at stated times, and then your headaches and dizziness will disappear. Don't take strong cathartic pills or salts, but just such a mild and pleasant-tasting remedy as Dr. Caldwell's Syrup Pepsin.

You can obtain a bottle of your drug-gist for fifty cents or one dollar, and either size may be enough to permanently cure you. Thousands of women keep it regularly in the house and will no longer be without it, as it cured them and can be used with safety by every member of the family, down to the youngest child, but if you have never used it take the advice of Mrs. Earl S. Cox, 409 Twenty-fifth street, Moline, Ill., and Mrs. Ellen Dungan, Muncie, Ind., and send to Dr. Caldwell for a free trial bottle, as they did, and learn for yourself what it will do in your own case. That it will cure you, as it did them, there is no doubt. Dr. Caldwell personally will be pleased to give you any medical advice you may desire for yourself or family pertaining to the stomach, liver or bowels absolutely free of charge. Explain your case in a letter and he will reply to you in detail. For the free sample simply send your name and address on a postal card or otherwise. For either request the doctor's address is Dr. W. B. Caldwell, R. 500 Caldwell building, Monticello, Ill.

### Shap Shots.

Silver threads among the gold has no reference to oleomargarine.

The kind of man who always knows what he is talking about is never garrulous.

The average man is a person who would rather put up a big bluff than a little money.

There is a difference in Texas moonlight and the mere moonshine of other countries.

It has just about gotten so in this country that a girl's own complexion looks unnatural.

Hope springs eternal in the human breast, but it is hunger that everlastingly rummages lower down.

Nobody knows who Cain's wife was but it is generally understood that she belonged to one of the first families.

About the hardest thing in this world for a woman to do is make her first husband's picture fit her second husband's watch.

One of the first surprises that strikes a man after he has been reduced from affluence to poverty is the number of life's necessities he can do without.

### Saved a Soldier's Life.

Facing death from shot and shell in the civil war was more agreeable to J. A. Stone, of Kemp, Texas., than facing it from what doctors said was consumption. "I contracted a stubborn cold," he writes "that developed a cough, that stuck to me in spite of all remedies for years. My weight ran down to 130 pounds. Then I began to use Dr. King's New Discovery, which completely cured me. I now weigh 178 pounds." For coughs, Colds, LaGrippe, Asthma, Hemorrhage, and lung trouble, its supreme. 50c. and 1.00.
